MAKE SOMETHING THAT MAKES MUSIC!

MAKE YOUR OWN SINGING BUTTON!

This old-time toy is easy to make and really works! Wind it up, then pull it and hear the button SING!

WHAT YOU NEED:

- 1 LARGE 2-HOLE BUTTON (at least 1½ inches across works best)
- 24–36 INCHES OF STRONG STRING
- SCISSORS

Tip: Yarn or heavy cotton string works great!

HERE'S HOW!

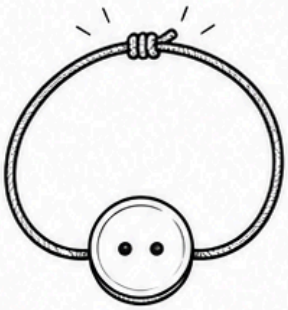
1 Cut a piece of string about 24 to 36 inches long.

2 Push one end of the string through one hole of the button and push it through the other hole.

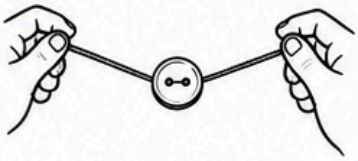
3 Pull both ends of the string so the button is in the middle. You now have a loop with the button in the center.

The two strands go through each hole in opposite directions.

4 Tie the two ends together in a tight, strong knot.

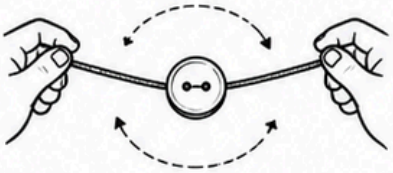


5 Hold one end of the loop in each hand.

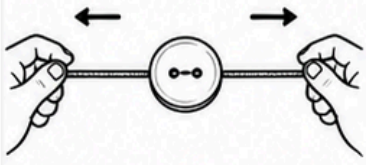


The button should hang freely in the middle.

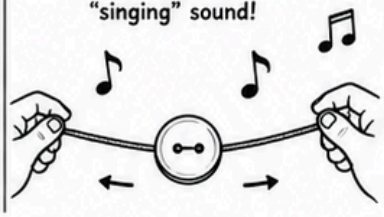
6 Swing or twirl the button in big circles. Keep going until the string is tightly twisted on both sides.



7 Stop twirling. Gently pull your hands apart...



8 ...then relax your hands slightly. The button will reverse direction and make a humming, "singing" sound!



Keep pulling and relaxing to make your SINGING BUTTON sing again and again!

MONSTER TIP:

Try winding it a little or a lot! The tighter you wind it, the longer and louder the song!

MAKE A STRING TELEPHONE!

Talk and listen with this old-time favorite!

WHAT YOU NEED:

2 PAPER CUPS

STRING (10–20 FEET)

2 PAPER CLIPS (OR SMALL BUTTONS)

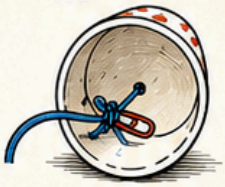
PENCIL

HERE'S HOW:

1. Poke a small hole in the bottom of each cup.

2. Thread one end of the string through the hole in the bottom of one cup.

3. Tie the string to a paper clip (or button) on the inside of the cup so it can't pull out.



4. Do the same with the other cup.

5. Pull the string tight. One person whispers into a cup while the other listens in the other cup.

The sound makes tiny vibrations that travel along the string right into the other cup!

WOW! YOU CAN HEAR EACH OTHER!

WHAT YOU NEED:

3. Squeeze out the extra water with your hands.

4. Add the glue and flour (and oil if you want). Mix it all together.
